INNOVATIVE SOLUTIONS IN HEALTHCARE WASTE

ABOUT US

THE COMPANY

Pro Health Solutions is a health-related company with our current product portfolio of vitamins and medical consumables.

The company’s mission is to provide quality healthcare products at competitive prices. We are experienced in implementing highly complex and time sensitive supply chain projects.

We are serving the UK’s National Health Service (NHS) with Vitamin D3 to a wide range of population including vulnerable shielded people, infant, children, and Breastfeeding Women under a 4-year framework agreement.

Pro Health has achieved the highest grade ‘AA’ by the BSI for the prestigious ‘BRCGS certificate’. Our business is hinged to our Quality Management System to ISO9001:2015 awarded by BSI. All our manufacturing partners are qualified to Food Safety Standards such as HACCP/ISO22000/BRCGS and ISO9001 QMS.

Our range of medical consumables includes healthcare waste and sharp containers, accessories, and other consumables.

We design and formulate our products under our brand name 'Pro Health', partnering with the world’s leading manufacturers of sharps containers.

Equipped with advanced engineering and production technology together with embedded quality control system, we can offer vast models of quality sharps containers. Our manufacturing partners are certified to all the usual requirements:

ISO 9001:2015 (Quality Management System) and ISO 13485:2016 (Medical Devices- Quality Management System), ISO 14001 (Environmental Management), ISO 45001 (Occupational Health and safety management systems) and the sharps containers products are ISO 23907, CE and FDA approved. In addition, there are a number of patents in our sharps containers.

Key success Factors

Our team have decades of experience in complex international supply chain management, achieving high quality customer fulfilment with products across many sectors of industry.

We have built robustness in our business processes so that we can offer our customers with quality and un-interrupted supplies of our products. These rely on the following key success factors ("KSF"):

- Consistency of product quality in terms of content and packaging.
- Delivery and distribution by the top-rated hauliers.
- Monitoring, reporting and management of the workflow, day-to-day issues and corrective actions underpinned by our Quality Management System.

Business Processes & Technology

We have a fully integrated warehouse and distribution IT systems for monitoring, tracking, and reporting from initial order from our customers through to final delivery to the required locations, all in real time.

We can accept electronic orders via email (with or without attachment) and/or via cXML and to provide electronic invoicing on our ecommerce platform. We are currently receiving our orders from NHS’s PECOS system. We have a fully auditable inventory management and order fulfilment system. It features bar code scanning to capture serial numbers of items at point of dispatch, and stock transaction histories.

We also have a system of first in first out control on the stock to make sure we have a smooth flow of delivery without keeping some of the items too long in the stock that does not meet our expiry timing.

Our system provides a POD (Proof of Delivery) with Customers reference number, description of goods, quantity, time of delivery, name, and signature.

We produce monthly/quarterly/annual management reports with analysis on purchasing pattern and expenditure of each Health Board.

SHARPS WASTE

SHARPS CONTAINERS

- Different product sizes
- Safe disposal of medical sharps
- Easy assembly
- Puncture and impact resistant
- Leakproof
- Does not open when locked

SHARPS WASTE

CATEGORIES - COVER COLOURS

COLOUR CODES:

A

ORANGE - NON-MEDICINALLY CONTAMINATE WASTE

Sharps bins with orange lids are meant for storing and disposing of sharps that do not have any medicinal products or their residues. These types of containers are frequently utilised in the healthcare sector to dispose of sharps items used in surgical procedures and syringes used for blood sampling. Depending on the colour required, choose the appropriate letter at the end of the product code, e.g: BS12-00007-A.

Y

YELLOW - MEDICINALLY CONTAMINATED WASTE

Sharps bins with yellow lids are designated for the storage and disposal of sharps that contain or are contaminated with medicinal products and their residues, like needles used for administering injections. It is important to note that not all medicinal products can be disposed of in yellow lidded bins, specifically those that possess cytotoxic and cytostatic properties. Instead, these types of items must be disposed of in sharps bins with purple lids. Depending on the colour required, choose the appropriate letter at the end of the product code, e.g: BS12-00007-Y.

P

PURPLE - CYTOTOXIC/CYTOSTATIC WASTE

Sharps bins with purple lids are intended for the disposal of sharps, including those that are contaminated with cytotoxic or cytostatic drugs. This type of bin is required, for instance, when needles or syringes are used to provide cytotoxic chemotherapy drugs to patients. Due to the hazardous nature of these sharps items, the purple waste stream generally undergoes high temperature incineration and thus must be kept as a separate waste stream. Depending on the colour required, choose the appropriate letter at the end of the product code, e.g: BS12-00007-P.

B

BLUE - PHARMACEUTICAL WASTE

Blue sharps bins are typically used for the disposal of pharmaceutical waste, such as expired or unused medications. This type of sharps bin is specifically designed to safely store and dispose of items like pills, tablets, and other forms of medication that are no longer needed or have expired. Depending on the colour required, choose the appropriate letter at the end of the product code, e.g: BS12-00007-B.

R

RED - ANATOMICAL WASTE

Sharps bins with red lids are intended for disposing of anatomical waste, which may include body parts, organs, and blood bags. These bins are designed to ensure safe and proper disposal of these types of waste in settings such as hospitals, clinics, or research facilities, where the risk of infection and injury is high. Depending on the colour required, choose the appropriate letter at the end of the product code, e.g: BS12-00007-R.

SHARPS WASTE PRODUCT GROUP

SHARPS WASTE BINS FIXING APPARATUS

WALL-FIXING APPARATUS

Metal fixing apparatus secures sharps containers to wall.

BAI2-00001-X

PRODUCT FEATURES:

Suitable for 0.7L & 1.3L sharps containers

BAI2-00002-X

PRODUCT FEATURES:

Suitable for 1.2L, 1.5L & 2.0L sharps containers.

BAI2-00003-X

PRODUCT FEATURES:

Suitable for 3.0L, 5.0L, 7.5L & 8.0L sharps containers.

BAI2-00004-X

PRODUCT FEATURES:

Suitable for 5.6L sharps containers.

WALL-FIXING APPARATUS

Metal fixing apparatus secures sharps containers to wall.

BAI2-00005-X

PRODUCT FEATURES:

Suitable for 10L & 12L sharps containers.

BAI2-00006-X

PRODUCT FEATURES:

Suitable for 25L & 30L sharps containers

BAI2-00007-X

PRODUCT FEATURES:

Suitable for 30L, 40L & 60L sharps containers.

PRODUCT FEATURES:
Suitable for 3.0L sharps containers.

BAI2-00010-X

PRODUCT FEATURES:
Suitable for 1.3L sharps containers.

BAI2-00011-X

PRODUCT FEATURES:
Suitable for 1.5L sharps containers.

BAI2-00014-X

PRODUCT FEATURES:
Suitable for 5.0L sharps containers

BAI2-00015-X

PRODUCT FEATURES:
Suitable for 5.6L sharps containers.

TREATMENT TRAYS

MULTITRAY TREATMENT TRAY

MULTITRAY TRAY:

Compatible with 1.2 L, 1.3 L and 2 LT medical waste bins.

TREATMENT TRAYS AND INTERNAL APPARATUS

DOUBLETRAY TRAY:

Versatile use. Compatible with 1.2L, 1.5L and 2.0L medical waste bins.

MONOTRAY TRAY:

Versatile use. Compatible with 1.3L medical waste bin.

TREATMENT TRAYS AND ACCESSORIES

BAI2-10001-Y (YELLOW) / BAI2-10001-E (GREY)

MONOTRAY TREATMENT TRAY

PRODUCT FEATURES:

- 4-compartments.
- Compatible with 1.3 litre medical waste bin - secure fit.
- Multiple use.

BAI2-10003-Y (YELLOW) / BAI2-10003-E (GREY)

MULTITRAY TREATMENT TRAY

PRODUCT FEATURES:

- 6 compartments.
- Compatible with 1.2, 1.3, 1.5 and 2.0 litre medical waste bins - secure fit.
- Versatile - can accommodate cotton boxes or other medical equipment boxes according to needs.
- Multiple use.

BAI2-10002-Y (YELLOW) / BAI2-10002-E (GREY)

DOUBLETRAY TREATMENT TRAY

PRODUCT FEATURES:

- 5 compartments.
- Compatible with 1.2, 1.5 and 2.0 litre medical waste bins - secure fit.
- Versatile - multi-compartment tray for different purposes, accommodating for cotton box, vials, kidney tub, etc.
- Multiple use.

BAI2-10004-R

MULTI-COMPARTMENT CONTAINER

PRODUCT FEATURES:

- Compatible with the Doubletray treatment tray.
- Compartments for syringes, needles, scalpels and other medical supplies.
- Multiple use.

BAI2-10005-R

MEDICAL WASTE CONTAINER

PRODUCT FEATURES:

- Compatible with Monotray and Multitray.
- Separates medical waste such as bandages, plasters and cotton.
- Provides layout within the treatment tray.

BAI2-10006-A / BAI2-10007-A/ BAI2-10008-A

1.2/1.3/2.0 LT MEDICAL WASTE COLLECTION CONTAINER

PRODUCT FEATURES:

- Specifically designed to fit within the Multitray.
- Used medical waste materials are placed in bags in these containers.
- Once finished with use, bag is to be removed and thrown away.
- Prevents contamination of clean medical materials within the tray.
- Multiple use.

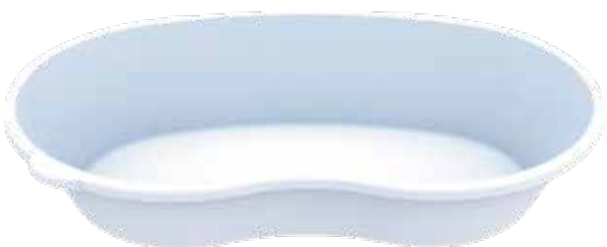

BAI2-10009-W

COTTON BOX

PRODUCT FEATURES:

- Compatible with Multitray and Monotray treatment trays.
- 2 components.
- Fits securely within treatment tray.
- Multiple use.

BAI2-10010-W

KIDNEY TUB

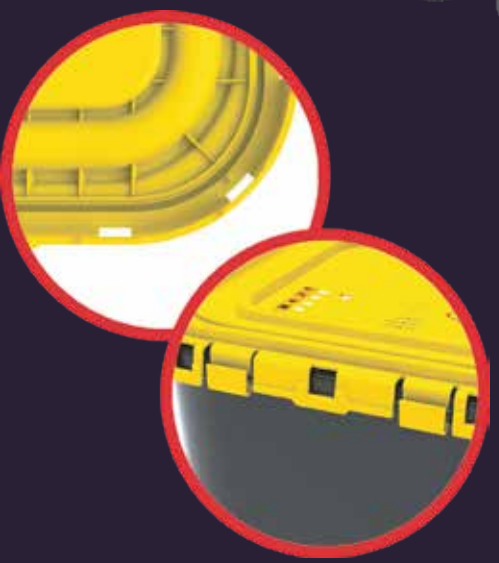

PRODUCT FEATURES:

- Compatible with the Doubletray treatment tray
- Infectious and medical waste is collected in this container.
- Single use

DANGEROUS

WASTE CONTAINERS

- Containers can be nested in one another when empty
- When the containers are full, they can be stacked on top of one another for more efficient storage and transport
- Manufactured with high impact resistance raw material
- Locks and sealed cover ensure no leakage of dangerous liquid and solid waste
- Compatible trolley for easy transport
- Hand grips for easy handling and stacking

SAFE AND CONTROLLED WASTE STORAGE AND TRANSPORTATION

DANGEROUS

WASTE CARRYING APPARATUS

- Designed to ensure user convenience
- Sealed cover prevents any leakage of dangerous liquid waste during transport
- Due to the ease of stacking, these containers can easily be transported
- The trolleys are made of solid and long-lasting metal material and painted with electrostatic spray painting
- Trolleys can be pushed and moved around excellently, due to the maneuverability of the wheels.
- Trolleys are manufactured in sizes that can pass through elevator doors, considering the transitions between floors, and can easily pass over bumps on the ground due to large wheels

PATHOLOGICAL SAMPLE CARRYING SET LARGE-BLUE

BAI2-50012-E

PATHOLOGICAL SAMPLE CARRYING SET LARGE- GREY

SAMPLE TRANSPORT SETS

EMERGENCY FIRST AID
CARRYING SETS

PRODUCT FEATURES:

Can be used in homes, businesses, offices and vehicles, has an internal apparatus with 7 compartments and is supported by additional compartments.

PACKING DIMENSIONS:

540 X 540 X 680 mm

PACKING QUANTITY: 16 pcs.

BAI2-50013-R

EMERGENCY FIRST AID SET
SMALL-RED

BAI2-50014-X

EMERGENCY FIRST AID SET
SMALL-TRANSPARENT

PRODUCT FEATURES:

Designed for the regular and safe transportation of sterilised and infected surgical instruments.

PACKING DIMENSIONS:

540 X 540 X 680 mm

PACKING QUANTITY: 16 pcs.

BAI2-50015-X

STERILISED SURGICAL INSTRUMENT
TRANSPORT SET SMALL

SAMPLE TRAYS

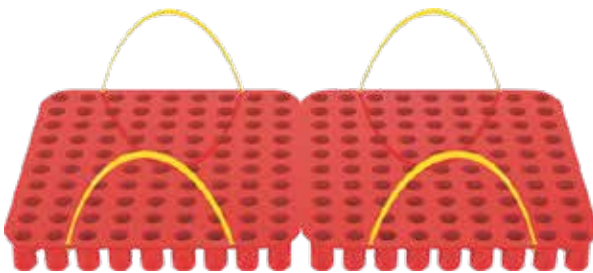

BAI2-50017-R

BLOOD SAMPLE TRANSPORTING TRAY - SMALL

PRODUCT FEATURES:
Can store 68 blood sample vials in 3 different sizes.
ABS material

PRODUCT DIMENSIONS: 300 x 150 mm

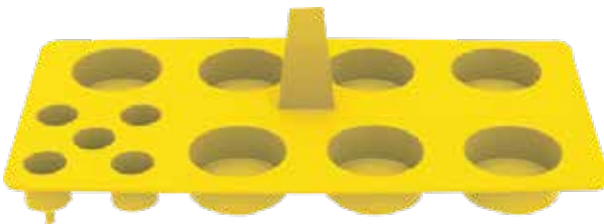

BAI2-50018-R

BLOOD SAMPLE TRANSPORTING TRAY - LARGE

PRODUCT FEATURES:
Can store 90/100 blood sample vials.
ABS material.

PRODUCT DIMENSIONS: 260 x 235 mm

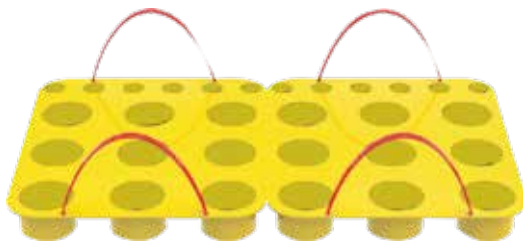

BAI2-50019-Y

URINE – STOOL SAMPLE TRANSPORTING TRAY - SMALL

PRODUCT FEATURES:
Can store 7 urine and 5 stool samples.
ABS material.

PRODUCT DIMENSIONS: 300 x 150 mm

BAI2-50020-Y

URINE – STOOL SAMPLE TRANSPORTING TRAY - LARGE

PRODUCT FEATURES:
Can store 18 urine and 12 stool samples.
ABS material.

PRODUCT DIMENSIONS: 260 x 235 mm

MEDICAL WASTE PRODUCT GROUP

PATHOLOGICAL WASTE CONTAINERS

BCI2-30300-R

30 LT PATHOLOGICAL WASTE CONTAINER

PRODUCT FEATURES:

3 components - container, cover and lid. This product is available from 0-100% recycled raw material. Puncture resistant and disposable

VEHICLE DIMENSIONS: 390 x 390 x 830 mm

CARRYING CAPACITY: 10 pcs.

PRODUCT FEATURES:

20 DC : 225 BOX / 2.250 PCS
40 DC : 450 BOX / 4.500 PCS
40 HC : 530 BOX / 5.300 PCS

BCI2-30400-R

40 LT PATHOLOGICAL WASTE CONTAINER

VEHICLE DIMENSIONS: 390 x 390 x 870 mm

CARRYING CAPACITY: 8 pcs.

PRODUCT FEATURES:

20 DC : 210 BOX / 1.680 PCS
40 DC : 420 BOX / 3.360 PCS
40 HC : 490 BOX / 3.920 PCS

BCI2-30600-R

60 LT PATHOLOGICAL WASTE CONTAINER

VEHICLE DIMENSIONS: 390 x 390 x 1030 mm

CARRYING CAPACITY: 5 pcs.

PRODUCT FEATURES:

20 DC : 200 BOX / 1.000 PCS
40 DC : 400 BOX / 2.000 PCS
40 HC : 480 BOX / 2.400 PCS

MEDICAL WASTE PRODUCT GROUP

MEDICAL WASTE TRANSFER CONTAINER

BCI2-30300-A

30 LT MEDICAL WASTE TRANSFER CONTAINER

PRODUCT FEATURES:

2 components - container and cover. This product is made from original raw material. Puncture resistant and reusable.

VEHICLE DIMENSIONS: 390 x 390 x 830 mm

CARRYING CAPACITY: 10 pcs.

PRODUCT FEATURES:

20 DC : 225 BOX / 2.250 PCS
40 DC : 450 BOX / 4.500 PCS
40 HC : 530 BOX / 5.300 PCS

BCI2-30400-A

40 LT ROUNDED PEDAL WASTE BIN

PRODUCT FEATURES:

Bin, Cover and Pedal.
Used to separate waste in industrial areas.

BIN PACKING DIMENSION:

400 X 380 X 550 mm / 1 piece

**DURABLE AND STRONG
WASTE BAGS FOR
DIFFERENT PURPOSES**

WASTE BAGS

BAI2-60001-R: 55 x 60cm / 100m
BAI2-60002-R: 65 x 80cm / 100m
BAI2-60003-R: 72 x 95cm / 100m
BAI2-60004-R: 80 x 110cm / 100m

MEDICAL WASTE BAG

PRODUCT FEATURES:

Double stitched polyethylene (PE) red waste bag - durable and strong elasticity.

PACKING QUANTITY: 200 pieces(10 roll/20 roll)

BAI2-60005-K: 65 x 80cm / 70m
BAI2-60006-K: 72 x 95cm / 70m
BAI2-60007-K: 80 x 110cm / 70m

DOMESTIC WASTE BAG

PRODUCT FEATURES:

Double stitched polyethylene (PE) black waste bag - durable and strong elasticity.

PACKING QUANTITY: 200 pieces(10 roll/20 roll)

BAI2-60008-B: 65 x 80cm / 70m
BAI2-60009-B: 72 x 95cm / 70m
BAI2-60010-B: 80 x 110 cm / 70m

PACKING WASTE BAG

PRODUCT FEATURES:

Double stitched polyethylene (PE) blue waste bag - durable and strong elasticity.

PACKING QUANTITY: 200 pieces(10 roll/20 roll)

BAI2-60011-Y : 72 x 95cm /100m
BAI2-60012-Y : 80 x 110cm / 100m

INFECTED LAUNDRY BAG

PRODUCT FEATURES:

Double stitched polyethylene (PE) yellow waste bag - durable and strong elasticity.

PACKING QUANTITY: 200 pieces(10 roll/20 roll)

WASTE BAGS

BAI2-60013-Y : 72 x 95cm / 100m
BAI2-60014-Y : 80 x 110cm / 100m

DANGEROUS WASTE BAG

PRODUCT FEATURES:

Double stitched polyethylene (PE) yellow waste bag - durable and strong elasticity.

PACKING QUANTITY: 200 pieces (10 roll/20 roll)

BAI2-60015-R : 60 x 85cm / 100m
BAI2-60016-R : 72 x 95cm / 100m
BAI2-60017-R : 80 x 110cm / 100m

AUTOCLAVABLE MEDICAL WASTE BAG

PRODUCT FEATURES:

Manufactured from PE, suitable for sterilization at maximum autoclave temperature of 141°C (285°F), resistant to puncture, tears and leakage.

PACKING QUANTITY: 100 pieces

BAI2-60018-X: 60 x 85cm / 50m
BAI2-60019-X: 80 x 110cm / 50m

WATER-SOLUBLE INFECTED LAUNDRY BAG

PRODUCT FEATURES:

Polyvinyl Alcohol (PVA) film, laced, melting point at 40° C to 80°C, transparent color is produced. Environmentally friendly, biodegradable and dissolves in water.

PACKING QUANTITY: 100 pieces (10 roll)

CONSUMABLES PRODUCTS

- Disposable
- Due to the antistatic additive properties, it does not collect dust
- Biodegrades within 12 months
- It is produced by microembossing technique and does not slip on wet and oily surfaces.

BAI2-60020-X

MOBCAP

PRODUCT FEATURES:

Double elastic-folding, biodegradable.

PACKING QUANTITY: 100 PCS.

BAI2-60021-X

OVERSHOE - STANDARD

PRODUCT FEATURES:

Single elastic, 9 microns single-ply, biodegradable

PACKING QUANTITY:

700 pieces

BAI2-60022-X

OVERSHOE - STANDARD

PRODUCT FEATURES:

Single elastic, 9 microns single-ply, biodegradable

PACKING QUANTITY:

1000 pieces

BAI2-60023-X

OVERSHOE - DOUBLE ELASTIC

PRODUCT FEATURES:

Double elastic, 9 microns single-ply, biodegradable.

PACKING QUANTITY:

1000 pieces

MEDICAL WASTE COLLECTING EQUIPMENT

BAI2-60024-A

**MEDICAL WASTE
COLLECTING CLOTHING**
Trousers and shirt.

BAI2-60025-A

**MEDICAL WASTE
COLLECTING OVERALLS**
Zipper, long-sleeved overalls

BAI2-60026-A

PROTECTIVE BOOT
Cotton-lined boots.

BAI2-60027-A

**MEDICAL WASTE
COLLECTING GLOVES**
32 cm rubber, with a thickness of
1.35 mm, cut and puncture resistant.

BAI2-60028-A

FFP2 PROTECTIVE MASK
Comfort wear, low resistance to
breathing, high filtration.

BAI2-60029-A

PROTECTIVE EYEWEAR
Anti-fogging, silicone.

MEDICAL WASTE COLLECTING EQUIPMENT

Non-woven fabric, disposable. Custom sizes and colors
can be produced on request.

PRODUCT NAME	COLOR	PRODUCT SIZE	PRODUCT DESCRIPTION
PATIENT APRON LONG-SLEEVE (Elastic)	Navy Blue	110cm	33 grams/m2 Non-Woven Fabric
PATIENT APRON SHORT-SLEEVE	Navy Blue	110cm	33 grams/m2 Non-Woven Fabric
PATIENT SKIRT	Navy Blue	70 x 200 cm	33 grams/m2 Non-Woven Fabric

BGI2-20300-N	BGI2-20600-N	BGI2-20400-N
30 Lt.	60 Lt.	40 Lt.

MODULAR WASTE BIN SET - ORGANIC WASTE

PRODUCT FEATURES:

3 main components: transportation apparatus (with/ without wheel), bin and hinged cover.
Mobile, modular and adjustable for easy use.

APPARATUS PACKAGE SIZE:

390 x 390 x 1030 mm

QUANTITY OF APPARATUS PER BOX:

Wheeled - 7 Pcs / - 10 Pcs Non-wheeled

BIN PACKING SIZE:

30 Lt -390 x 390 x 830 mm / 12 Pcs
40 Lt -390 x 390 x 870 mm / 8Pcs
60 Lt -390 x 390 x 1030 mm / 6 Pcs

HOME AND OFFICE TYPE PEDAL WASTE BINS

SLIM CORNERED PEDAL WASTE BINS

BGI2-30150-M: 15 LT / METALLIC / MASK-GLOVES WASTE
BGI2-30150-A: 15 LT / ORANGE / MEDICAL WASTE
BGI2-30150-E: 15 LT / GREY / DOMESTIC WASTE
BGI2-30150-B: 15 LT / BLUE / WASTE PACKAGING
BGI2-30150-Y: 15 LT / YELLOW / HAZARDOUS WASTE

15 LT SLIM CORNERED PEDAL WASTE BIN

PRODUCT FEATURES:

Bin, cover and pedal. Can be used to separate waste in industrial areas.

BIN PACKING DIMENSION:

460 X 335 X 810 mm / 15 pieces

BGI2-30250-M : 25 LT / METALLIC / MASK-GLOVES WASTE
BGI2-30250-A : 25 LT / ORANGE / MEDICAL WASTE
BGI2-30250-E : 25 LT / GREY / DOMESTIC WASTE
BGI2-30250-B: 25 LT / BLUE / WASTE PACKAGING
BGI2-30250-Y : 25 LT / YELLOW / HAZARDOUS WASTE

25LT SLIM CORNERED PEDAL WASTE BIN

PRODUCT FEATURES:

Bin, cover and pedal. Can be used to separate waste in industrial areas.

BIN PACKING DIMENSION:

540 X 385 X 665 mm / 6 pieces

BGI2-30400-M : 40 LT / METALLIC / MASK-GLOVES WASTE
BGI2-30400-A : 40 LT / ORANGE / MEDICAL WASTE
BGI2-30400-E : 40 LT / GREY / DOMESTIC WASTE
BGI2-30400-B: 40 LT / BLUE / WASTE PACKAGING
BGI2-30400-Y : 40 LT / YELLOW / HAZARDOUS WASTE

40 LT SLIM CORNERED PEDAL WASTE BIN

PRODUCT FEATURES:

Bin, cover and pedal. Can be used to separate waste in industrial areas.

BIN PACKING DIMENSION:

450 X 325 X 1050 mm / 5 pieces

BGI2-30600-M : 60 LT / METALLIC / MASK-GLOVES WASTE
BGI2-30600-A : 60 LT / ORANGE / MEDICAL WASTE
BGI2-30600-E : 60 LT / GREY / DOMESTIC WASTE
BGI2-30600-B: 60 LT / BLUE / WASTE PACKAGING
BGI2-30600-Y : 60 LT / YELLOW / HAZARDOUS WASTE

60 LT SLIM CORNERED PEDAL WASTE BIN

PRODUCT FEATURES:

Bin, cover and pedal. Can be used to separate waste in industrial areas.

BIN PACKING DIMENSION:

515 X 365 X 1160 mm / 5 pieces

HOME AND OFFICE TYPE PEDAL WASTE BINS

CORNERED PEDAL WASTE BINS

BGI2-3025I-E : 25 LT / GREY / DOMESTIC WASTE
BGI2-3025I-A : 25 LT / ORANGE / MEDICAL WASTE
BGI2-3025I-B: 25 LT / BLUE / WASTE PACKAGING
BGI2-3025I-Y : 25 LT / YELLOW / HAZARDOUS WASTE

25 LT CORNERED PEDAL WASTE BIN

PRODUCT FEATURES:
Bin, cover and pedal. Can be used to separate waste in industrial areas.

BIN PACKING DIMENSION:
715 X 665 X 450 mm / 4 pieces

BGI2-3040I-E : 40 LT / GREY / DOMESTIC WASTE
BGI2-3040I-A : 40 LT / ORANGE / MEDICAL WASTE
BGI2-3040I-B : 40 LT / BLUE / PACKAGING WASTE
BGI2-3040I-Y : 40 LT / YELLOW / HAZARDOUS WASTE

40 LT CORNERED PEDAL WASTE BIN

PRODUCT FEATURES:
Bin, cover and pedal. Can be used to separate waste in industrial areas.

BIN PACKING DIMENSION:
415 X 390 X 930 mm / 5 pieces

BGI2-30650-E : 65 LT / GREY / DOMESTIC WASTE
BGI2-30650-A : 65 LT / ORANGE / MEDICAL WASTE
BGI2-30650-B : 65 LT / BLUE / PACKAGING WASTE
BGI2-30650-Y : 65 LT / YELLOW / HAZARDOUS WASTE

65 LT CORNERED PEDAL WASTE BIN

PRODUCT FEATURES:
Bin, cover and pedal. Can be used to separate waste in industrial areas.

BIN PACKING DIMENSION:
465 X 425 X 1120 mm / 5pieces

BGI2-30850-E : 85 LT / GREY / DOMESTIC WASTE
BGI2-30850-A : 85 LT / ORANGE / MEDICAL WASTE
BGI2-30850-B : 85 LT / BLUE / WASTE PACKAGING
BGI2-30850-Y : 85 LT / YELLOW / HAZARDOUS WASTE

85 LT CORNERED PEDAL WASTE BIN

PRODUCT FEATURES:
Bin, cover and pedal. Can be used to separate waste in industrial areas.

BIN PACKING DIMENSION:
495 X 480 X 1160 mm / 5 pieces

WASTE CONTAINERS

WASTE CONTAINERS

- Durable and withstands sunlight, heat and cold.
- An optional magnetic lock system can be added.
- 2-wheel and 4-wheel bins
- When empty, bins can be nested in one another for efficient use of space.
- Optionally, a pedal can be added.

WASTE CONTAINERS

BGI2-40800-A : 80 LT / ORANGE / MEDICAL WASTE
BGI2-40800-B : 80 LT / BLUE / PAPER WASTE
BGI2-40800-G : 80 LT / GREEN / GLASS WASTE
BGI2-40800-Y : 80 LT / YELLOW / PLASTIC WASTE
BGI2-40800-E : 80 LT / GREY / METAL WASTE
BGI2-40800-K : 80 LT / BLACK / DOMESTIC WASTE

80 LT WASTE CONTAINER

PRODUCT FEATURES:
Separate waste in industrial areas.

PRODUCT DIMENSION: 480 X 540 X 770 mm

BGI2-41200-A : 120 LT / ORANGE / MEDICAL WASTE
BGI2-41200-B : 120 LT / BLUE / PAPER WASTE

Mid-Size Toilet Roll Compact Auto 90M length	13.2cm x 90M	6	900	Pack	5400

APPLICATION NOTES

Infected medical waste

Depending on the risk(s) and therefore the required process for treatment:

High infection risk – yellow – high temperature incineration

Moderate infection risk – orange – low temperature treatment (autoclave, microwave etc) ideally with commercial incineration with municipal & commercial wastes to recover energy

Hygiene risk – tiger bags (yellow with two bold black stripes to indicate the lowest possible infection risk. These wastes can be landfilled or treated by lower temperature incineration as part of a heat/energy recovery process.

There is a common problem as there is no absolute requirement to rigorously separate high, moderate or low infection risk wastes at the time of first disposal, and later after several days of storage by which time the infection risk may have changed. Additional practicalities include the volume of wastes categorised in each group – will one small item cause the entire load to be uprated? Can a hospital ward or clinic find space to accommodate every possible waste container, and ensure that every waste item is correctly categorised for disposal into and one of 10 or more bins or bags? For these reasons, some wide generalisations are sometimes made.

Cytotoxic waste

Cytotoxic & cytostatic wastes – purple - high temperature incineration. This should include syringes and needles useful drug preparation and injection, infusion bags, vials and ampoule whether empty or not, dressings etc, and gloves, masks, gowns used by healthcare professionals preparing and administering these drugs.

Pathological waste

Swabs, cultures etc from hospital laboratories etc, can be autoclaved on site and then added to municipal waste streams. It is essential to ensure no patient identification is possible. If it is, treat first to make safe then shred to destroy any identifications. This applies to all waste streams for healthcare activities.

Larger tissues from operating theatres (amputations etc) and post mortem suites must be labelled accordingly and sent for high temperature incineration.

Infected laundry

All hospital laundry and laundry from nursing homes etc should be considered potentially hazardous, processing at high commercial washing temperatures is satisfactory in almost all circumstances.

Particular risks are faced by laundry staff and to the most part these can be managed by fully automated hands-off laundry automation. for this, and especially for contaminated laundry soiled with faeces etc alginate laundry sacks have proven ideal as these will be moved to the commercial washer automatically and will dissolve a way to release the contents without risk to individuals.

Infected glass waste

No specific requirement but H&S obligations must acknowledge the risk of injury and infection. We suggest a standard sharps bin as the waste packaging demands a closed puncture-resistant container and the processing standard of incineration will address the infection hazard. Quite intentionally, glass drug vials, ampules, broken glass thermometers etc will be placed into a sharps bin for safe disposal.

Plastic-metal waste

This is dependent on the circumstances of waste arising, for example in healthcare some drugs are packaged in plastic bottles as opposed to glass but will have a metal ring and rubber stopper at the crown. The overriding classification for wastes of this kind will be the pharmaceutical product that they have contained; it is acceptable in this circumstance not to address specifically the quantity of plastics and metals in this waste stream.

This latter has particular relevance for sharp bins where now used sharps are disposed with the syringe still attached to reduce the risk of sharps injury add of incorrect disposal of the two separated components.

Dangerous waste

This is dependent on the danger posed to individuals and to the environment. For occasional use, a pragmatic approach is understandable but for larger or repeated waste arisings or for large volumes, a specialist waste contractor, or the Environment Agency should be contacted.

Domestic waste

Normally separated at source by the producer into recyclable and non-recyclable waste streams. local authorities will advise. No standard UK-wide guidelines are available to local authorities as their waste contractors may vary in their interpretation of recyclability, largely depending on profitability.

Packaging waste

This is dependent on the volumes of waste being produced and its suitability for recycling. in addition, there will be variations between the approaches is used by different contractors

Organic and food waste

These wastes will normally be composted or treated in an anaerobic digester for energy recovery.
